Software Developer with experience in building responsive web applications across e-commerce and finance domains. Skilled in **React.js, Node.js, .NET, HTML, CSS, JavaScript**, with expertise in **RESTful APIs**, **MongoDB**, and **MySQL**. Completed internships at Satva Solution and Postulate, contributing to real-time modules and client-facing features. Certified in **JavaScript**, **Node.js**, **Cybersecurity**, and **Blockchain** from IBM, Coursera, and LetsUpgrade.

Strong interpersonal and agile collaboration skills, with proven ability in **problem-solving**, **code reviews**, and **timely feature delivery** across sprints.

EDUCATIONAL BACKGROUND

Bachelor of Technology – Information Technology
U.V. Patel College of Engineering, Ganpat University, 2025

PROFESSIONAL WORK EXPERIENCES

Software Developer Trainee– Satva Solution - Jan 2025 - Jun 2025
Key Responsibilities Areas:

- Completed 6-month full-stack development training covering 4 key technologies: React, .NET, MongoDB, and SQL.
- Developed 3+ real-time web modules, improving client interface responsiveness by up to 40%.
- Participated in 10+ agile sprints, contributing to 100% of sprint goals with timely feature delivery.
- Conducted code reviews for 20+ pull requests, reducing bugs and improving code quality by 30%.
- Assisted in deployment of 2 major client projects, ensuring 99.9% uptime and seamless production rollout.

Full-stack Developer– Postulate - Jan 2024 - Feb 2024
Key Responsibilities Areas:.

- Completed a 2-month full-stack internship focused on modern web application development.
- Built and optimized 10+ reusable UI components using React.js, enhancing front-end performance by 25%.
- Integrated RESTful APIs and implemented efficient state management for dynamic user experiences.
- Collaborated with back-end teams using PHP to deliver seamless client-facing solutions.
- Contributed to successful delivery of 2 web projects, meeting 100% of client specifications and deadlines.

PROJECTS ACCOMPLISHMENTS

1. **E-Commerce Business Website - Software Developer Project |** **Jan 2024 – Feb 2024**

- Developed a responsive e-commerce web application using **React.js**, **CSS**, and **.NET**, ensuring cross-device compatibility.
- Engineered secure **checkout workflows**, integrated **payment gateways**, and implemented **order tracking** features.
- Designed and deployed an **admin dashboard** for product management, user roles, and real-time analytics.
- Applied **RESTful API integration** and optimized front-end performance for faster load times and improved UX.
- Delivered full-stack solution with 100% feature completion, aligning with business requirements and security standards.

TECHNICAL SKILLS

Frontend

- HTML, CSS, JavaScript, React.js

Backend

- Node.js, .Net

Database

- MongoDB (NoSQL Database), MySQL(SQL Database)

Tools

- GitHub, Git, VsCode, Visual Studio, Cursor, Trae AI

INTERPESONAL SKILLS

- Agility
- Communication.
- Networking.
- Analytical Thinking
- Critical Thinking
- Negotiation.
- Time management.
- Leadership
- Problem Solving

2. **[Accounting Integration Portal - Software Developer Project](#)** | **Mar 2025 – May 2025**

➢ Designed and developed a web application integrating **Xero** and **QuickBooks** for seamless financial data synchronization.
➢ Implemented secure **API connections** to automate transaction imports, account mapping, and ledger updates.
➢ Built dynamic **reporting modules** for real-time transaction summaries, audit trails, and financial insights.
➢ Streamlined financial workflows by reducing manual data entry and improving accuracy across accounting systems.
➢ Delivered scalable and maintainable codebase using industry best practices, enhancing system reliability and performance.

3. **[Pet Adoption Website - Software Developer Project](#)** | **Aug 2023 – Sep 2023**

➢ Developed a responsive web platform for pet adoption using **React.js** and **CSS**, optimized for mobile and desktop devices.
➢ Implemented **filtering and search functionality** to help users browse pets by type, age, and location.
➢ Built interactive UI components for pet profiles, adoption forms, and user engagement features.
➢ Enabled online adoption applications with form validation and submission tracking.

CERTIFICATIONS

➢ Successfully completed **Build a Portfolio Website with HTML, CSS, and JavaScript** offered by **Coursera Project Network**, gaining hands-on experience in front-end web development.
➢ Completed **Build a Website Using an API with HTML, JavaScript, and JSON** from **Coursera Project Network**, focusing on dynamic content integration using external APIs.
➢ Acquired foundational programming skills through **Learn to Code with AI** from **Scrimba,** emphasizing interactive learning and AI-assisted coding.
➢ Attended and completed the **JavaScript Bootcamp** conducted by **LetsUpgrade**, covering core JavaScript concepts and practical applications.
➢ Earned the **Cybersecurity Fundamentals** certification from **IBM**, covering essential principles of digital security and threat mitigation.
➢ **Completed Blockchain Basics** from the **University at Buffalo**, gaining insight into distributed ledger technology and its applications.
➢ Successfully finished the **IT Fundamentals for Cybersecurity specialization** from **IBM**, covering network security, risk management, and compliance essentials.

FORMAL DECLARATION

"I declare that the information provided in this resume is true and accurate to the best of my knowledge."

AREAS OF INTEREST

➢ Full Stack Development
➢ JavaScript Developer
➢ Frontend Developer
➢ Node JS Developer
➢ React Developer
➢ Training and Development
➢ Documentation
